

As a responsible company, we attach great importance to compliance with applicable environmental and product safety regulations. As part of our corporate duty of care, we hereby confirm compliance with the following legal requirements and EU directives:

PAHS described in Regulation 2005/69/EG

We hereby confirm that all products of Cellofoam International GmbH & Co. KG comply with the directive on restrictions on the marketing and use of certain dangerous substances and preparations (polycyclic aromatic hydrocarbons in extender oils and tires).

PFOS described in Regulation 2006/122/EG

We hereby confirm that all products of Cellofoam International GmbH & Co. KG comply with the directive on restrictions on the marketing and use of certain dangerous substances and preparations (perfluorooctane sulfonates).

Conflict minerals

We hereby confirm that all products of Cellofoam International GmbH & Co. KG comply with the EU Regulation 2017/821 on Conflict Minerals of January 01, 2021. This regulation serves to define due diligence obligations in the supply chain for Union importers of so-called conflict minerals. The aim is to curb the financing of violence and human rights violations in conflict and high-risk areas.

POP-Regulation (Persistent Organic Pollutants)

We hereby confirm that all products of Cellofoam International GmbH & Co. KG comply with Regulation 2019/1021 of the European Parliament and of the Council of June 20, 2019 on persistent organic pollutants (POPs). This regulation governs the prohibition and restriction of the manufacture, placing on the market and use of persistent organic pollutants. It also deals with the restriction of releases of such substances and the provision for the disposal of waste consisting of, containing or contaminated by such substances.

EU-Regulation 2024/573 according fluorinated greenhouse gases

We hereby confirm that all products of Cellofoam International GmbH & Co. KG comply with Regulation (EU) 2024/573 on fluorinated greenhouse gases (F-gases). The use of F-gases, the placing on the market, leakage and tightness checks and the certification requirements for personnel and companies are regulated in the regulation.

EU-Regulation 2024/590 according ozone-depleting substances

We hereby confirm that all products of Cellofoam International GmbH & Co. KG comply with Regulation (EU) 2024/590 on ozone-depleting substances. This regulation governs the production, import, export, placing on the market, storage and onward supply of substances that deplete the ozone layer. It also specifies their use, recovery, recycling, reprocessing and destruction. It also regulates the transmission of information on these substances as well as the import, export, placing on the market, onward supply and use of products and equipment containing such substances or required for their functioning.

EU-Regulation 2023/1115 concerning deforestation and forest degradation

We declare that the Cellofoam products comply with the Regulation (UE) n°2023/1115, concerning deforestation and forest degradation.

Mit freundlichen Grüßen
